PRESS RESLEASE

FOR IMMEDIATE RELEASE

Distinct Infrastructure Group Inc. (formerly QE2 Acquisition Corp.) Announces 2015 Third Quarter Results

TORONTO, ONTARIO (October 28, 2015) – Distinct Infrastructure Group Inc. (the "Company" or "DIG" – TSX Venture Exchange: DUG), announces that during the third quarter ended August 31, 2015, the Company generated revenue of $8,727,311, EBITDA of $1,466,038 and net earnings of $527,587 or $0.0025 per share, compared to revenue of $6,667,846, EBITDA of $1,071,939, and a net earnings of $680,326 or $0.0045 per share during the same quarter of 2014. The increase of $394,099 in EBITDA was mainly attributable to increases in revenue from construction and new build out of telecommunications infrastructure in Ontario.

During the nine month period ended August 31, 2015, the Company generated revenue of $23,399,392, EBITDA of $3,643,256, and net earnings of $1,337,392 or $0.0076 per share, compared to revenue of $18,202,284, EBITDA of $2,709,626, and net earnings of $1,434,797 or $0.0095 per share. The increase in revenue and EBITDA in 2015 compared to 2014 was mainly attributable to increased telecommunication construction activities in the Ontario region. Also, the Company acquired QE2 on August 13, 2015, which included two weeks of operations in the consolidated financial statements. However, the Company had increases in general and administration cost as a result of increased selling, general and administrative expenses, as well as additional depreciation of assets, and interest costs. The expenses associated with the Company becoming publicly listed on the TSXV in August 2015, also had a negative impact on EBITDA.

DIG's working capital at August 31, 2015 was $7,527,964 as compared to $1,815,675 as at August 31, 2014.

The following is a summary of selected financial information of the Company:

		For the three months ended Aug 31,		For the nine months ended Aug 31,	
Operating Results	**Notes**	**2015**	2014	**2015**	2014

Notes:

(1) Operating margins and EBITDA are not recognized measures under IFRS, and are unlikely to be comparable to similar measures presented by other companies. Management believes that, in addition to net earnings, the measures described above are useful as they provide an indication of the results generated by the Company's principal business activities. Similarly, capital assets and working capital are not recognized measures under IFRS, however, management believes that these measures are useful as they provide an indication of the Company's investment in operating assets and liquidity.

- operating margin is defined as revenue less operating expenses;
- EBITDA is defined as earnings before finance expenses, income taxes, and depreciation and amortization;
- Capital assets are defined as property, plant, equipment and intangible assets;
- Working capital is defined as total current assets less total current liabilities.

OUTLOOK

The recent election of a Liberal government in Ottawa, combined with an NDP Premier in Calgary and a Liberal Premier in Ontario is forecasted to have a positive impact on new infrastructure projects in all three provinces. All three leaders have made infrastructure spending a key priority. We are currently in the second round of a infrastructure supercycle, and we now have the political alignment and funding. The Bell Canada $20B GigaFiber announcement earlier this year followed up by announcements from Telus and Rogers, confirms that the Distinct Infrastructure Group is well positioned. Management sees continued growth over the next two years in line with what the Company has been experiencing over the last two.

Although western Canada’s economy has suffered, and slowed down in the last year, but we are seeing a continued commitment to telecom spending that is proportional if not similar to the commitments by Bell in the east. There is in reality a decade’s worth of work in Canada to deliver gigabite fiber to the homes of most Canadians, and DIG is exceptionally well positioned to take advantage of this opportunity.
