DISTINCT INFRASTRUCTURE GROUP REPORTS RECORD FIRST QUARTER REVENUE AND EBITDA

FOR IMMEDIATE RELEASE

May 25, 2017 **TSXV:DUG │OTCQX:DSTFF**

Toronto, Ontario – Distinct Infrastructure Group Inc. ("Distinct" or the "Company") today released its financial results for the three months ended March 31, 2017 ("Q1 2017"). For Q1 2017, the Company reported record first quarter revenues of $16.0 million and EBITDA of $1.6 million, an increase of 49% and 52% respectively as compared to the three months ended March 31, 2016 ("Q1 2016"). The Company continues to experience strong revenue growth due to incremental demand for services from key clients.

"We are pleased with the Company's performance so far in 2017" said Joe Lanni, Co-Chief Executive Officer of the Company. "With a focus on managed growth and operational excellence, we believe the Company's results in Q1 2017 sets a strong base for the remainder of the year"

Further commenting on the first quarter results, Alex Agius, Co-Chief Executive Officer of the Company stated: "The Company continues to make select investments internally on additional manpower and equipment to meet demand from both new and existing clients. Our core business represents an exceptional platform for growth and we remain focused on operational excellence in 2017."

Other highlights for Q1 2017:

- With over 85% of our revenues originating from clients with Master Service Agreements ("MSA"), Distinct remains well-positioned to continue meeting and exceeding its client's expectations. The nature of the work being issued to the Company by its biggest customers continues to be projects that are larger and of a longer duration. This change in the mix of work has required a continued investment in working capital by the Company, as seen in our accounts receivable and work in progress balances at the end of Q1 2017. Distinct continues to work with our clients, through various initiatives, to improve cash conversion cycles.

- Revenue growth continues with a 49% increase over Q1 2016. The Company experienced stronger than historically adjusted growth in Q1 2017 due to a push in work from late in the fourth quarter of 2016.

- Adjusted EBITDA of $1.6 million in Q1 2017 as compared to $1.1 million in Q1 2016, a 52% increase. Adjusted EBITDA margin was 9.9% in Q1 2017 compared to 9.8% in Q1 2016, an increase of 0.2% year over year.

- As previously announced on March 28, 2017, the Company will be refinancing its existing senior debt on May 26, 2017. The Company expects the transaction to reduce annual net interest expense and directly benefit earnings per share and cash flows going forward. The funds will be used for existing debt refinancing, future working capital needs and general corporate purposes.

- The Company continues to experience strong demand for its services from Canada's largest communication companies, various utilities and municipalities across the provinces of Ontario and Alberta. As well, the

Company’s iVAC hydroexcavation business continues to perform well, with a mix of internal and external sales growth in all jurisdictions.

- Western business results remain in-line with management expectations. As well, the Company has added select strategic blue chip clients to its customer roster in Western Canada, which will drive growth in 2017. The Company expects a modest improvement in the broader economic landscape into mid-2017 and continues to see significant demand for the Company’s utilities services specifically in western Canada.

- The Company’s build out of a robust management structure across all areas of the business continues with a view towards servicing our clients and managing growth in the field. Investment in the training of staff continues with a focus on implementation of systems and processes.
